# Institutional-Grade Compliance, Automated.

Transforming standard marketplace identity tools into a rigid, HIPAA-compliant medical credentialing gateway.

## Marketplace Engine

### Verification

KYC/KYB via Trulioo & Biometric Scans

### Data Security

GDPR/CCPA PII Data Protection

### Access Model

Recurring Subscription Billing (Chargebee/Orb)

## VERIFICATION FILTER

## Clinical Customization

### Medical Credentialing API

The system automatically cross-references medical databases to verify NPI numbers, DEA licenses, and Board Certifications in real-time.

✓ NPI Verified

✓ Board Certified

### HIPAA-Grade Architecture

Elevating encryption (HashiCorp Vault) to full e-PHI compliance, vaulting provider credentials and patient-adjacent data securely.

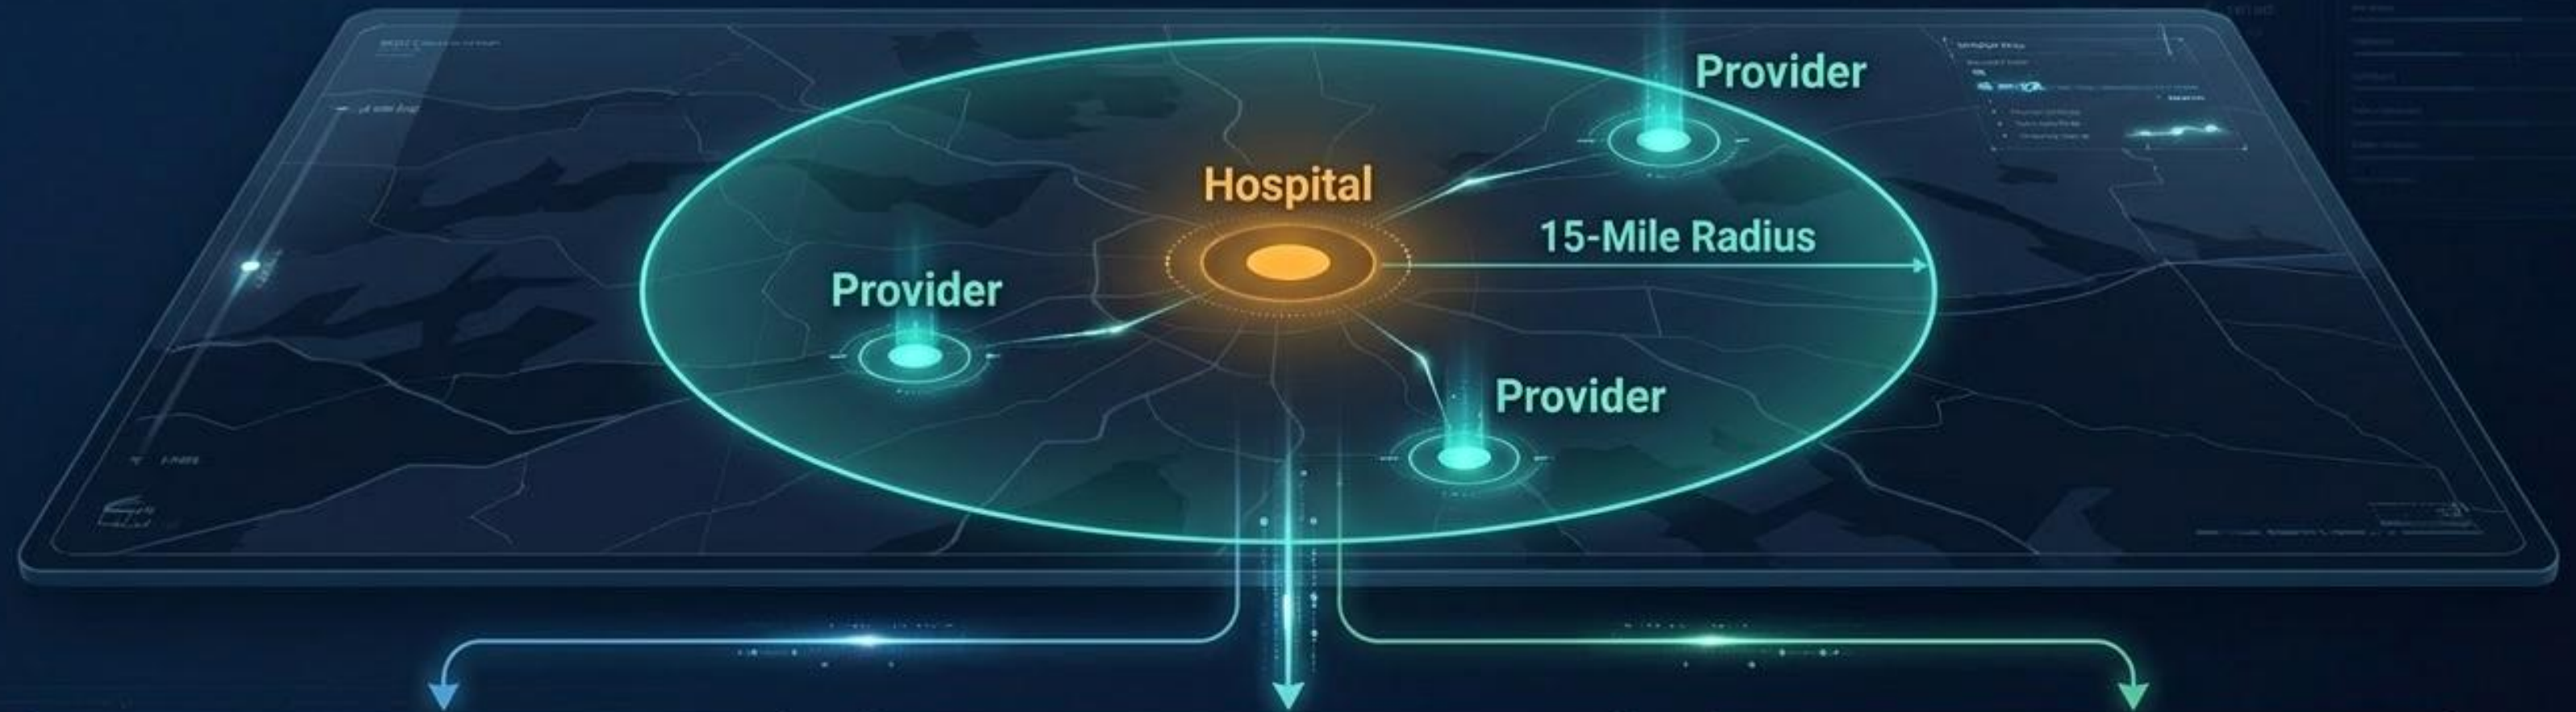

### Tiered Facility Access

Hospitals and clinics subscribe to recurring tiers based on volume (e.g., Seasonal Surge vs. Annual Enterprise) managed via our billing engine.

# Fulfilling the Urgent Shift.

Leveraging Uber-style geo-dispatch and automated contracting to fill critical clinical gaps in minutes.

## Step 1: Geo-Radius Push Dispatch

PostGIS / AWS Location

Bypassing passive search, the platform pushes notifications simultaneously to eligible, active, and fully credentialed providers currently within a strict 15-mile travel radius.

## Step 2: Reverse Rate Negotiation

The clinic posts a baseline hourly rate. Available locum tenens providers can accept instantly or counter-offer. A time-boxed 30-minute negotiation window ensures rapid closure.

## Step 3: Auto-Generated Digital Contracts

DocuSign API

Upon agreement, the platform auto-generates a binding digital contract with pre-loaded malpractice liability, IP, and non-solicitation clauses. Instant E-signatures.

# Frictionless Operations & Multi-Dimensional Quality Control

Protecting hospital budgets through escrow while building a high-fidelity clinical reputation network.

## Escrow & Dispute Mediation

Hospital

### Secure Shift Payouts

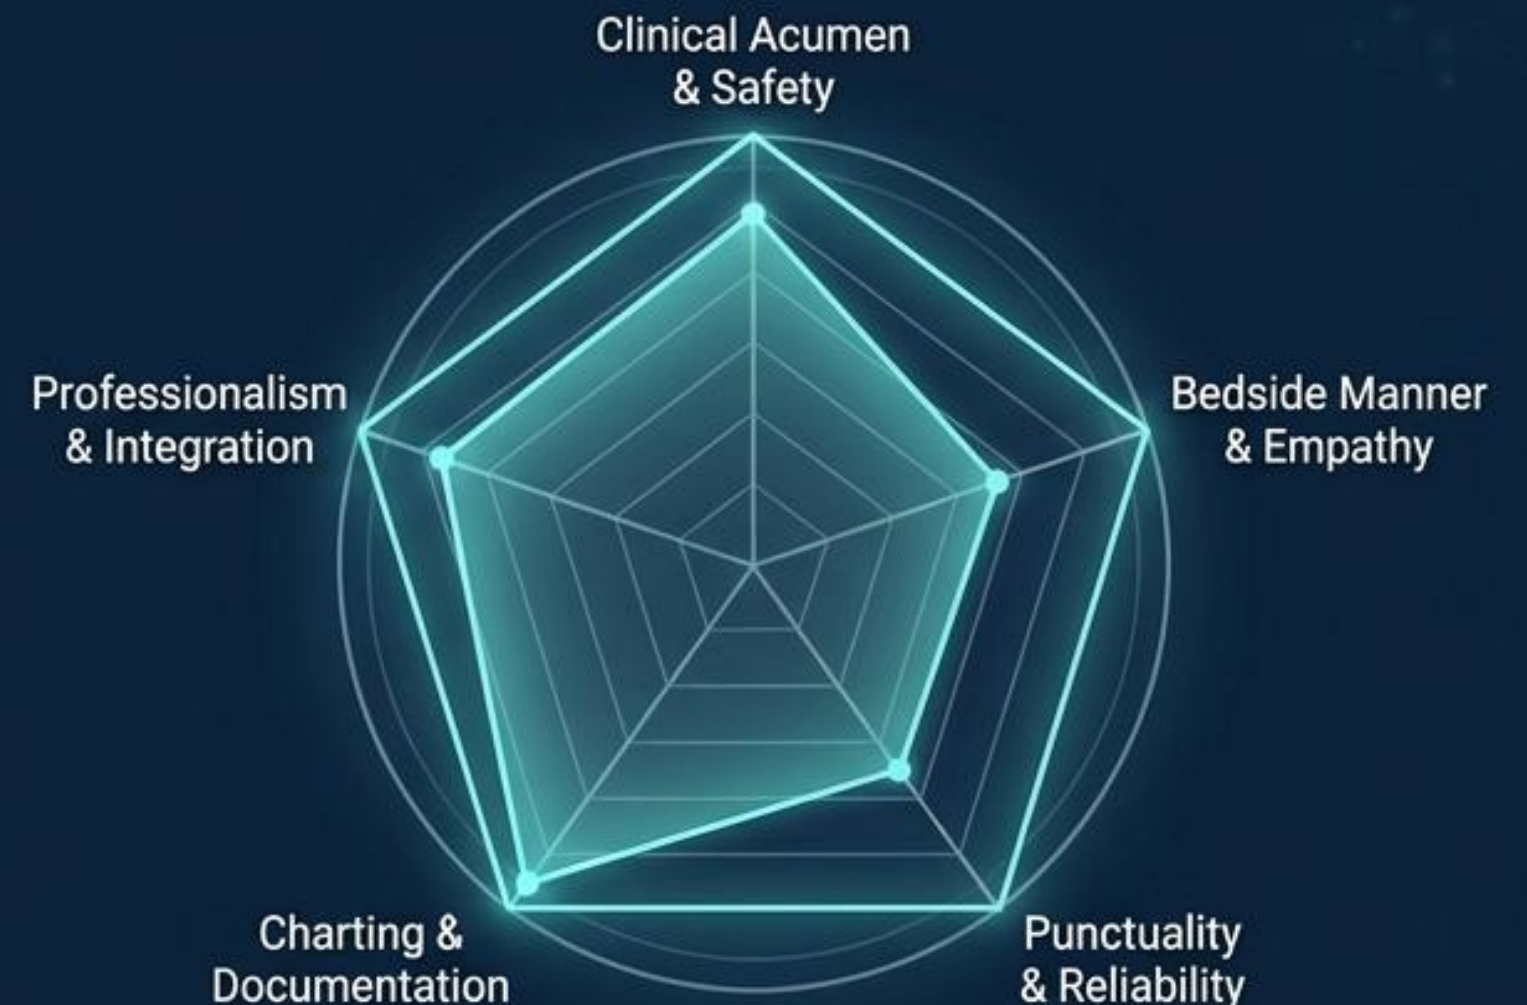

Funds are locked via Stripe Connect escrow upon contract signing. Payouts are only released upon verified clinical shift completion.

### Automated Dispute Freeze

Built-in mediation workflows automatically freeze funds (Status: DISPUTED) if a facility flags a no-show, compliance breach, or clinical failure, awaiting binding admin arbitration.

Provider Payout

## The 5-Axis Clinical Radar Chart

Moving beyond rudimentary 5-star ratings. Post-shift, hospitals rate locum providers across 5 critical dimensions to create a visual web of clinical competence.

# Ojasys Pvt. Ltd.

Technologies for a Better World

## Our Mission

Ojasys builds next-generation software platforms that bridge critical gaps in healthcare, workforce, and enterprise operations. We harness the power of AI, automation, and marketplace intelligence to deliver scalable solutions that create real-world impact.

### Healthcare Technology

HIPAA-compliant platforms for clinical staffing, credentialing, and provider management.

### Marketplace Solutions

End-to-end marketplace engines with KYC/KYB, escrow, geo-dispatch, and dynamic contracting.

### AI & Automation

Intelligent workflows that eliminate friction, reduce cost, and improve outcomes at scale.
